
Weeks 11–14

General Information

For everyone's safety and convenience, we remind you of the importance of respecting the instructions and barriers that are in place. This is crucial when renovations to the existing Ångström building begin.

Ongoing Work

Work area Building 7

- Renovation work on floor 3, the entire floor is closed.

Work area Building 6

- Renovation work on floor 3, parts of the floor are closed.

Work area Building 10

- Ground work
- Interior additions to the framework

Work area Building 1, Link to Building 10

- Additions to the framework for the link between building 1 and building 10.

Relevant disturbances for the coming period:

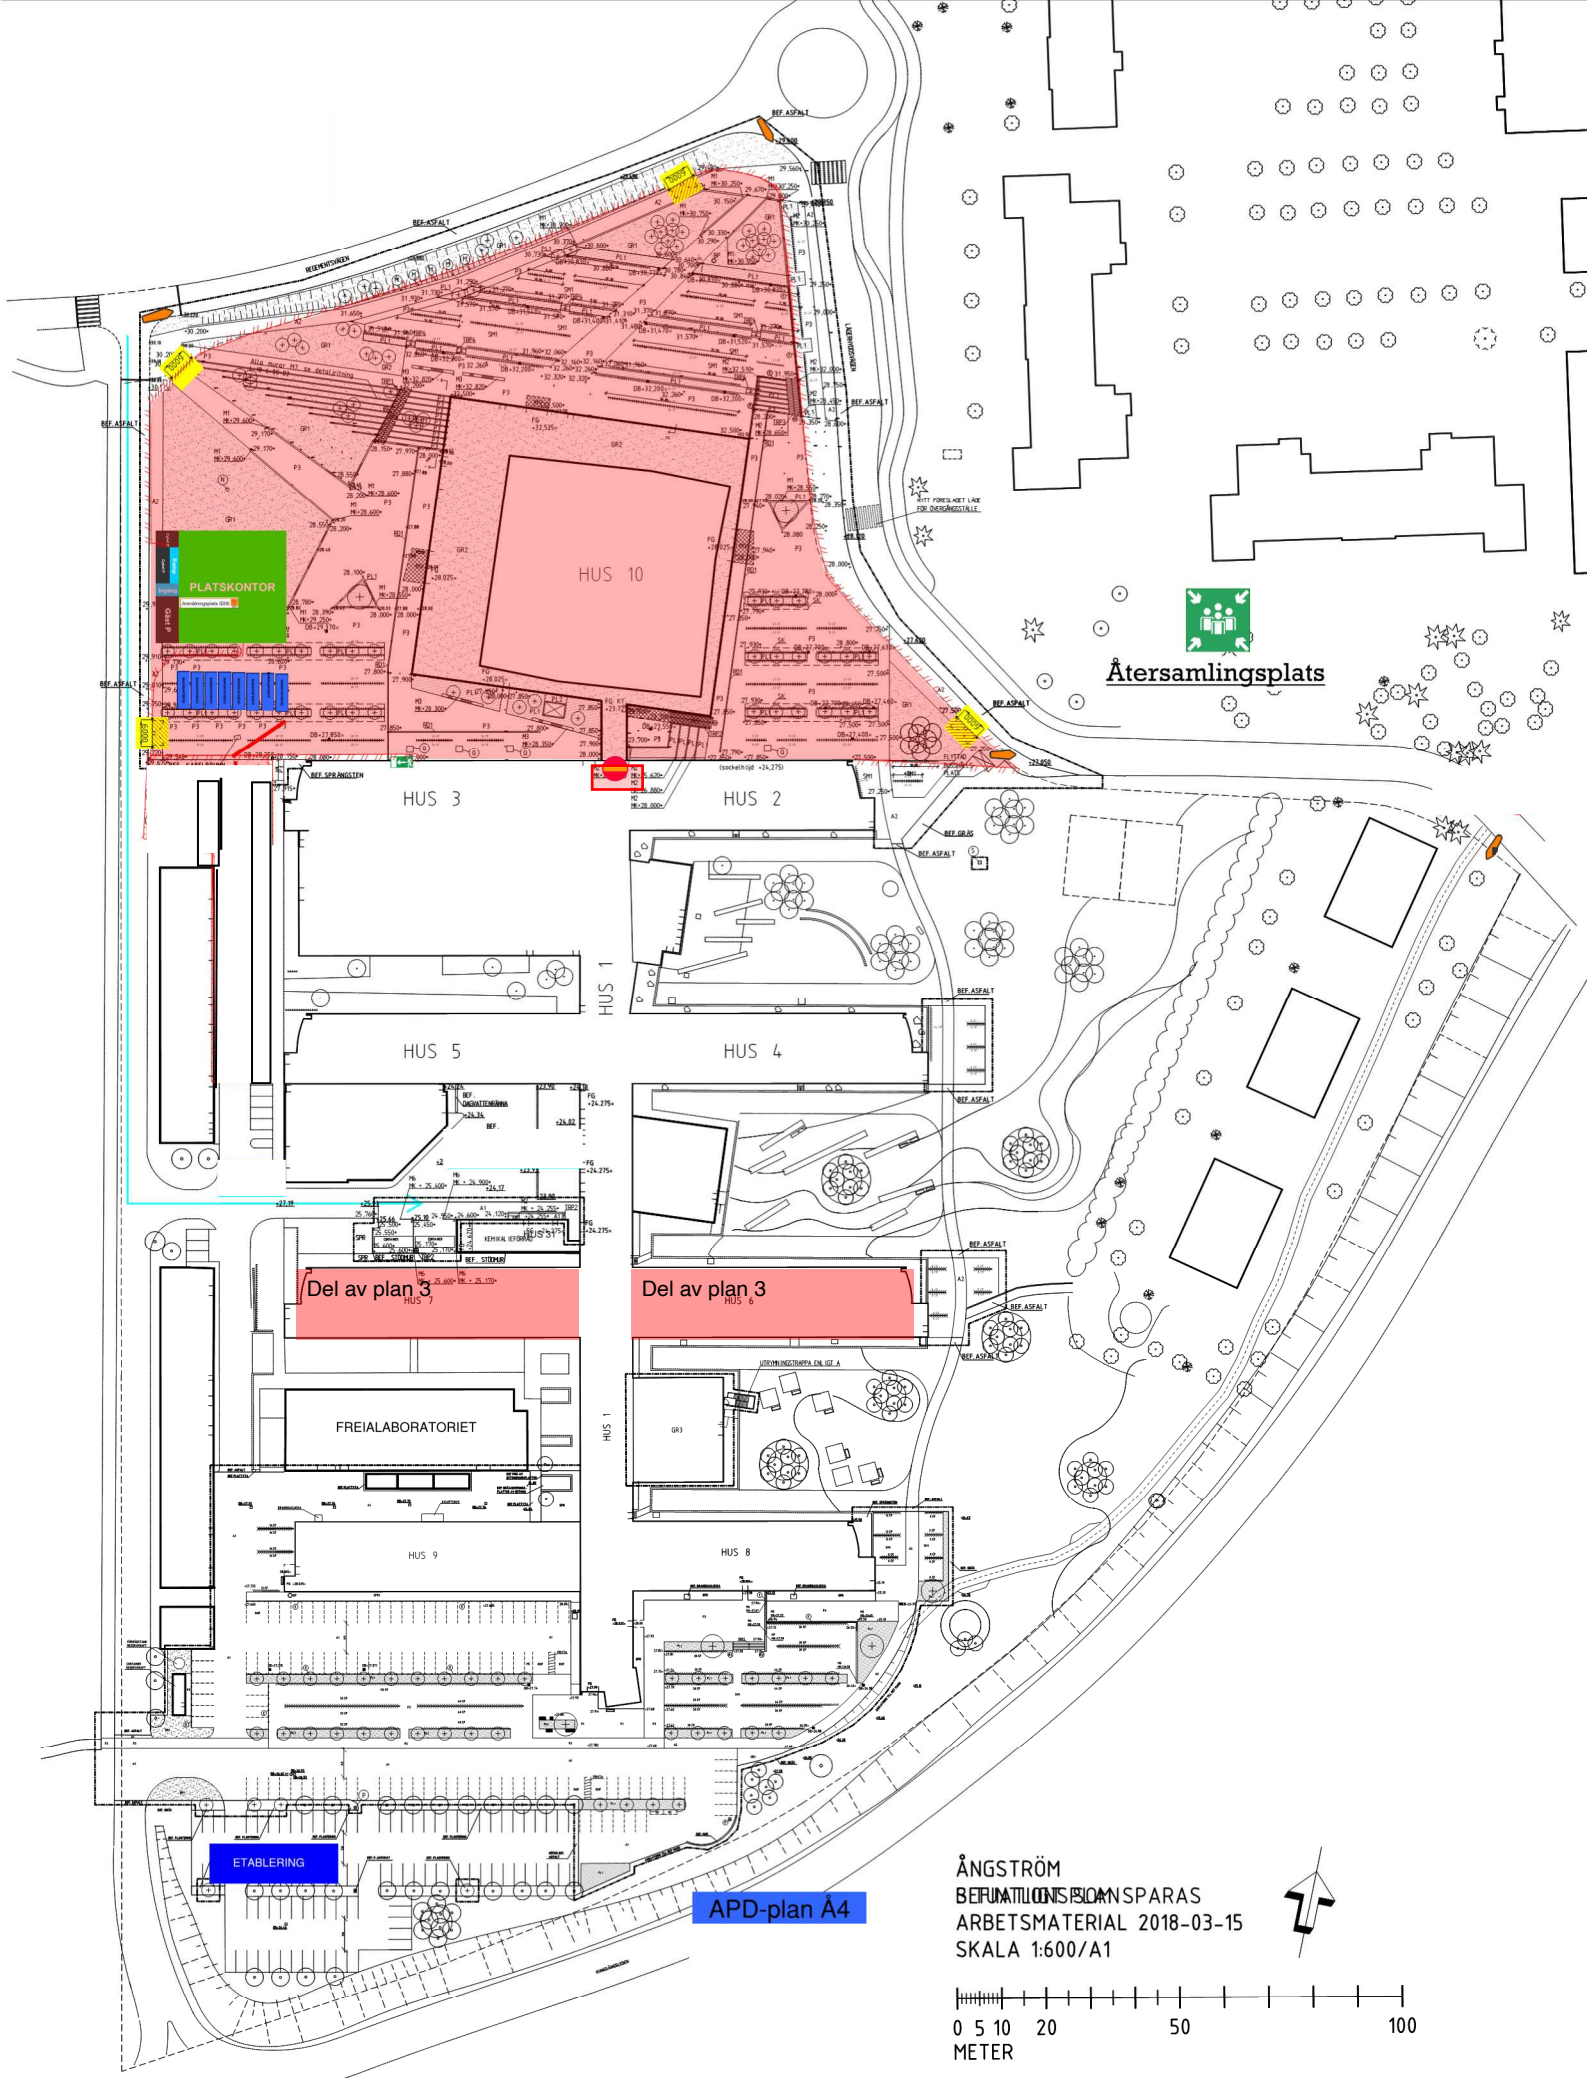

- Work in buildings 6 and 7 may result in noticeable noises from hand held machinery. Ear plugs are available to pick up at the Ångström Library.
- The construction crews work hard to maintain order and cleanliness in and around the work site, but there can be times when dirt and grime are spread. The floors in the stairwells can at times become messy. We ask for your understanding about this. The work will occur during a short period and all surrounding facilities will be cleaned and returned to their previous state as soon as the work is completed.
- If you are disrupted by the work or have opinions about how the work is being conducted, please do not confront the workers at the site. Instead, contact your immediate supervisor so that the project is directly informed and through the proper channels.

Closures, provisional arrangements

- According to the attached general plan.

Noticeable upcoming work (preliminary start times)

- During week 15, the work to complete the outer wall of the staff lunch room facing house 10 will begin. The work will take about 4 weeks and during that period the lunch room will be closed.
- House 7 floor 2 renovations are planned to begin in May.
